

QUALITY ASSURANCE FOR THE FOOD LABORATORY

Cherney Microbiological Services, Ltd.

WHO

Managers, supervisors, and technicians who are responsible creating and sustaining the systems necessary for generating reliable and reproducible test results. Personnel seeking additional training on quality processes and continuous improvement in the lab.

WHAT

Accurate, reliable and consistent test results don't just happen automatically. There are many factors that contribute to high quality results. Are you wondering if you're doing the right things in your internal lab? In the changing regulatory and food safety climate, are you getting more questions about your testing programs and results? Are you considering ISO 17025 accreditation? As your partner in testing, we invite our customers to learn from our decades of experience with lab testing, GLPs and quality systems. Topics include:

- Quality Control Activities
- Continuous Improvement
- Statistics and Control Charts
- Validation and Verification
- Technician Training and Proficiency
- Investigations and Audits in the Lab

WHY

- Improve quality in the lab
- Ensure accurate and defensible test results
- Stay ahead of FSMA lab standards
- Prepare for ISO 17025 Accreditation
